- Identifying old ideas about our worth, and replacing them with spiritually sound beliefs
- Accepting our genetics and our aging process
- Inviting our younger selves/inner family into the healing
- Creating a loving, supportive inner team that includes our Mental Self, Emotional Self, Spiritual Self and our Physical Self as equals

We will be using Zoom.us, so you will need a quiet space to allow you to bring your focus to the Body Image healing work. **There will be homework, visualizations, exercises, discussions and healing!**
